To Whom It May Concern:

My name is Mikell Adams and I have been practicing as a licensed chiropractor in Kansas since 1991. I have been using NeuroModulation Technique, as taught by Dr. Les Feinberg for the last two and one-half years, with more than 80% of my patients receiving this treatment protocol in addition to chiropractic evaluation and adjustments. I have found that NMT, which is taught by use of the NMT seminar manual, works as disclosed and is the most effective non-invasive approach for addressing most non-self-limiting health challenges that I have observed.

I have found NMT to be extremely useful in treating patients presenting with a wide variety of symptoms. Benefits to my patients include, but are not limited to, asthma and respiratory allergy elimination, food sensitivity elimination, correction of digestive function, resolution of chronic skin disorders, chronic and acute musculoskeletal pain and recurring respiratory infections, including chronic sinusitis.

I strongly urge you to consider granting the requested patent for NMT.

Yours truly,

Mikell Adams, D.C.
